UNIFORM CODE

POLICY

This Little Grove Primary School Uniform Code Policy has been approved by the School Board, and is in line with policy requirements of the WA Department of Education.

Students are encouraged to be proud of their school, and can further promote a positive image by wearing the school uniform. It also helps to create a sense of identity among students.

Fashion elitism needs to be avoided due to pressure placed on parents to purchase expensive clothing, and unwanted peer pressures on the students while at school.

The safety of students is more easily managed by staff as students are easier to identify, and can then wear clothing appropriate for the school environment. This applies for activities undertaken within the school, and also external activities such as sports carnivals at other locations.

Students learn the importance of being well groomed at school, and how this can benefit later in life when they become part of the wider community as an adult.

All students are expected to follow the uniform code unless an exemption has been granted. Support and assistance are provided where there are difficulties in complying with school uniform and dress code requirements.

NON-COMPLIANCE

Students and their families who do not comply with the requirements are counselled and their concerns resolved where possible, which may involve referral to the school uniform advisory panel (if necessary).

Where all other avenues for achieving compliance are unsuccessful, and provided it can be demonstrated that financial reasons are not a contributing factor, the Principal can apply those sanctions prescribed in the legislation. The sanctions must be applied in line with the processes approved by the School Board.

These sanctions are (Regulation 36 (2)):

- preventing the student from attending any activity in which the student would have been representing the school ;or
- preventing the student from attending or participating in any school activity which, in the opinion of the Principal, is not part of the educational program.

The Principal cannot apply suspensions, exclusions, or prevent non complying students from attending or participating in any school activity which, in the opinion of the Principal, is an essential part of the student's educational program, or apply sanctions that damage their external career prospects (such as negative mentions in references or school reports).
